

# How do **you navigate** your travel?

TRICOUNTYACCESS.ORG

Families and businesses in Cook, McHenry and Lake Counties have experienced steady **population** and **economic development growth**, and know firsthand that the region's transportation network has not kept up with all who **work, live, and play** there.

The Tri-County Access Project is about bringing people together to find solutions. This project continues to research the area's transportation needs while engaging leaders and community members from more than 80 cities and villages in a regional discussion of how best to address our transportation challenges.

**Learn more.** *Join the discussion and provide your suggestions on how to best meet our transportation challenges.*
